Index of Subjects

A

abdominal angiography, early cancer of the biliary tract 75
abdominal surgery, child criteria 176
– liver cirrhosis 176
– peritonitis 176
– prothrombin level 176
– sepsis 176
– suture-line insufficiency 176
– white blood cell count 176
acid secretion, CaM-Kinase II 90
acute abdomen, acute torsion of the wandering spleen 78
– chronic torsion of the wandering spleen 80
– differential diagnosis 80
– wandering spleen 78
acute ammonia toxicity, molecular mechanism VIII
– L-Carnitine VIII
acute HBV infection, qualitative anti-HBc IgM assay 588
– serum anti-HBc IgM quantification 588
acute hepaticoencephalopathy, Lactiol III
– monoamines IV
– splenic artery embolization III
– sulfur secretion IV
– vancomycin III
– visual evoked potentials XX
acute hepatic failure, cerebral blood flow XV
– encephalopathy XVI
– metabolic abnormalities XVI
– proton magnetic resonance spectroscopy XVI
acute hyperammonemia, CaCl autoradiography VII
– extracellular brain Taurine VII
acute ischemic colitis, stenotic lesion 188
– toxic megacolon 188
acute liver failure, CaCl autoradiography VII
– extracellular brain Taurine VII
– GaBa binding XXIII
– Glutamate binding XXIII
acute pancreatitis, activated leucocytes 522
– acute cholangitis 554
– aggressive bile acids 572
– alcohol 517
– α_2-macroglobulin 517
– angio CT-scan 514
– anticholinergic drugs 538
– antibiotics 538/570
– bacterial infection 527
– biliary disease 514
– biliary pancreatitis 517/550/571
– blockade of the CCK-receptors 572
– calcitonin 538
– cerulein-induced pancreatitis 463
– cholecystokinin 538
– contrast-enhanced CT 563
– conservative treatment 569
– CRP 531/563
– diagnosis 531
– digestive enzyme 571
– endoscopic sphincterotomy 514/550
– ERCP 514/531
– etiology 531
– free radicals 452
– histamine 538
– imaging procedure 531
– inhibition of inflammatory mediators 527
– ischemia 452
– lipase 571
– local complications 544
– necrosectomy 563
– pancreatic ascites 152
– – necrosis 556
– – oxidative stress 520
– – pseudocysts 556
– parenteral nutrition 538
– pathophysiology 517
– percutaneous drainage 556
– peritoneal lavage 538
– plasmapheresis 514
– polymorphonuclear granulocyte 514/517/563
– postischemic reperfusion 452
– prognosis 531
– prostaglandin E_2 463
– proteinase inhibitors 538
– severity 517
– somatostatin 538
– superoxide dismutase 452
– surgery 515/556/571
– systemic complications 520/544
– ultrasound-guided fine needle aspiration 563
– underlying disease 544
adenoma of the colon, LDH isoenzymes 471
α-fetoprotein, hepatocellular carcinoma 311/342
– tumor growth 311
amidase V
amino acid, administration VII
– amino-acid derived urea synthesis III
– glutamine delivery VII
– metabolism VII
– urinary calcium excretion VII
ammonia, cholinesterase activity XXIV
– determination in capilary and arterial blood XXI
– hepatic encephalopathy XII
– intoxication XXII
– spinal reflexes XXII
ammonium chlorid XIV
anomalous union of the pancreaticobiliary system, bile duct cancer 59
– cholangitis 59
– cholecystitis 59
– dilatation of the bile duct 56
– gallbladder cancer 56
– phospholipase A2 59
antacid hydrotalcite, non ulcer dyspepsia 87
anterior segmentectomy, caudate lobectomy with anterior segmentectomy 61
– hepatic dysfunction 61
– hilar cholangiocarcinoma 61
– postoperative hepatic failure 61
anticoagulation therapy, adverse drug reaction 402
– liver hematoma 402
– warfarin sodium 402
anti HBc IgM, acute hepatitis 588
– chronic hepatitis 588
arginine-malate, hepatic encephalopathy XII
– liver cirrhosis XII
arterial embolization, combination with debulking surgery 10
– unresectable liver cancer 10
arterial ketone body ratio, extrahepatic metabolic load 257
– glucose intolerance 253
– hepatectomy 257
– intraoperative stress factors 257
ascites, hepatectomy 14
– liver failure 14
– liver resection 14
– portal pressure 14
Atkinson prosthesis, esophageal carcinoma 502
– esophagorespiratory fistula 502
atrophic gastritis, gastric cancer 86
– non atrophic antral gastritis 86
– serum pepsinogen 87
autoimmune disease, idiopathic portal hypertension 163
– splenectomy 165
autoimmune hepatitis, biliary cirrhosis 499
– chronic active hepatitis 499
– steroids 499

B

basement membrane, early esophageal carcinoma 226
– lymphocyte infiltration 226
– urokinase-type plasminogen-activator 226
β-endorphin, chronic duodenal ulcer 116
– combination with phytohemagglutinin 116
biliary lithiasis, bilio-digestive anastomosis 582
– lithotomy 582
– lithotripsy 582
– PTCS 582
bilio-digestive anastomosis, biliary lithiasis 582
– stenosis 582
bile duct, cancer 56
– dilatation 56
– gallbladder cancer 59
– pressure 370
– sphincter of Oddi 370
– stones 370
biliary cirrhosis, autoimmune hepatitis 499
– chronic active hepatitis 499
– steroids 499
biliary tract, Caroli's disease 136
– choledochoduodenostomy 123
– early cancer 69
– endoscopic sphincterotomy 123
– hepaticojejunostomy 123
– liver fibroadenomatosis 136
bismuth subsalicylate, helicobacter positive gastritis 87
– non ulcer dyspepsia 87
blood ammonia levels, splenic artery embolization III
blood coagulation, portal vein occlusion 167
brain amino acid concentration, hepatic encephalopathy 1
brain indoles, hepatic encephalopathy I
– receptors I

C

CaM kinase II, acid secretion 90
carcinoma of the papilla of Vater, lymphatic spread 457
– pancreatic plexus 457
cathepsin B, cerulein-induced pancreatitis 155
cavernous angioma, colo-anal anastomosis 279
– colonic reservoir 279
– rectum 279
– splenic flexure 281
cerebral zinc content, hepatic encephalopathy XI
chemotherapy, hepatic hilar bile duct cancer 27
cholangitis, anomalous union of the pancreaticobiliary system 59
– endoscopic sphincterotomy 396
– surgical treatment 396
cholecystitis, anomalous union of the pancreaticobiliary system 59
cholecystokinin, duodenal ulcer patients 96
– endogenous cholecystokinin 96
– gallbladder function 380
– gastric acid 96
– gastric emptying 96/380
– motor activity 96
– receptor antagonist 380
cholecystolithiasis, ESWL 388
choledochal cysts, abdominal pain 196
– choledochocele 196
– congenital biliary stricture 195
– risk of malignancy 195
choledochocele, choledochal cyst 196
choledochoduodenostomy, bile duct obstruction 123
– biliary tract disease 123
– latero-lateral approach 123
– termino-lateral approach 123
cholelithiasis, ESWL 159
cholinesterase, chronic hepatitis 365
chronic duodenal ulcer, β-endorphin 116
– lymphocyte proliferation 116
– phytohemagglutinin 116
chronic HBV-infection, interferon therapy 28
– polymerase chain reaction 28
– qualitative anti HBc IgM assay 588
– serum anti HBc IgM quantification 588
– serum HBV DNA 28
chronic hepatitis, albumin 365
– anti HCV 365
– autoimmune hepatitis 499
– biliary cirrhosis 499
– cholinesterase 365
– c-myc oncogene 37
– HBsAg 37
– hepatic binding protein 34
– jaundice 365
– liver cirrhosis 365
– – function 32
– – histology 365
– ras oncogene 37
– scintigraphic images 32
– serum alkaline phosphatase 365
– serum aminotransferase 365
chronic liver disease, immunosuppression 297
– liver function XXI
– – transplantation 297
– oxygen consumption XI
– serum prealbumin XXI
chronic liver insufficiency, cerebral cortex ammonia VI
– cerebral glutamate VI
– – glutamine VI
– hyperammonemia VI
– renal ammonia metabolism VI
chronic pancreatitis, ERCP 52
– pancreatic ascites 152
– – duct width 52
– – head resection 356
– pancreatoduodenostomy 356
chronic septic cholangitis, diuciphon 129
– extracorporal immunopharmacotherapy 126
– secondary immunodeficiency 126
chylous ascites, congenital megalymphatics 132
– hypoplastic lymphatics 132
– liver cirrhosis 132
– obturator hernia 131
collagen, normal gastric mucosa 90
– peptic ulcer 90
colonoscopy, hyperplastic polyps 475
– schistosomiasis 184
– vascular alterations in the colonic mucosa 184
colorectal cancer, fecal occult blood test 191
– screening 191
common bile duct cancer, lymphatic spread 457
– pancreatic plexus 457
common biliary duct stones, ERCP 139
– sphincterotomy 139
congenital biliary stricture, choledochal cysts 195
– ERCP 194
– hepatic fibrosis 195
– jaundice 194
congo red test, duodenal ulcer 267
– highly selective vagotomy 267
corticosteroids, stress adaption of the stomach 94
Crohn's disease, eosinophil cationic protein 276
CT, acute abdomen 79
– diagnosis of the obturator hernia 131
– early cancer of the biliary tract 75
– torsion of the wandering spleen 79

D

debulking surgery, combination with arterial embolization 10
– radical resection 10
– unresectable liver cancer 10
disseminated intravasal coagulation, portal vein occlusion 167
DNA analysis, hepatocellular carcinoma heterogeneity 491
DNA ploidy pattern, gallbladder carcinoma 375
– mitotic index 375
double cancer, carcinoma of the gastric tube 44
– esophageal cancer 44
duodenal ulcer, acid antrum 270
– congo red test 267
– endogenous cholecystokinin 96
– gastric bicarbonate secretion 120
– highly selective vagotomy 267
– pc-acb borderline 267
– smoking 120
duodenopancreatectomy, pancreatic cancer 145
– periampullary carcinoma 145
– postoperative complications 145

E

early cancer of the biliary tract, abdominal angiography 75
– CT 75
– depth of cancer invasion 69
– diagnosis 76
– ERCP 75
– histological diagnosis 74
– laboratory tests 76
– microscopic extension 69
– operative procedure 76
– prognosis 69
– PTCG 75
– PTCS 75
– ultrasonography 75
early carcinoma, ERP 83
– pancreatic body 81
– – tail 81
early esophageal carcinoma, basement membrane 226
– carcinogenesis 222
– dysplasia of the esophagus 222
– endoscopic ultrasonography 212
– endoscopy 207
– esophagectomy 203
– gross appearance 207
– hyperthermochemoradiotherapy 217
– intraepithelial carcinoma 203/236
– lymph node metastasis 203/236
– mucosal carcinoma 203
– multiple cancer 222
– nuclear DNA analysis 232
– radiology 207
– severity of dysplasia 222
– squamous cell carcinoma 222
– submucosal carcinoma 203/236
– symptoms 207
– vessel invasion 236
EGF,EGF receptor 88
– gastric mucosa 88
endoscopic sphincterotomy, acute cholangitis 550
– acute pancreatitis 550
– cholecystectomy 554
– pancreatic necrosis 550
endoscopic ultrasonography, early esophageal carcinoma 212
– lymph node metastasis 212
endoscopy, early esophageal carcinoma 207
– lugol-combined endoscopy 210
enteroclysis, mesothelial cyst 509
epidermal growth factor, stress adaption of the stomach 94
ERCP, congenital biliary stricture 194
– early cancer of the biliary tract 75
– pancreatic duct width 52
ERP, early carcinoma 83
– pancreatic ductal carcinoma 83
eosinophil cation protein, Crohn's disease 276
– inflammatory bowel disease 276

– steroids 276
– ulcerative colitis 276
eosinophilic gastroenteritis, histological findings 42
– steroid therapy 41
– ultrasonography 42
esophageal cancer, double cancer 44
– emergency endoscopy 502
– esophagorespiratory fistula 502
– gastric tube reconstruction 44
esophageal pH, white wine 97
esophageal transit scintigraphy, esophagus reconstruction 48
– interposed colon 48
– tubulized stomach 48
esophageal varices, metoclopramide 173
– variceal pressure 173
esophagectomy, early esophageal carcinoma 203
esophagectomy, esophagus reconstruction 48
– – gastro-esophageal reflux 48
esophagorespiratory fistula, Atkinson prosthesis 502
– emergency esophagoscopy 502
– esophageal cancer 502
esophagus reconstruction, esophageal transit scintigraphy 48
– gastroesophageal reflux 48
– interposed colon 48
– tubulized stomach 48
ESWL, cholecystolithiasis 388
– cholelithiasis 159
– hepatolithiasis 159

– rat oncogene 37
– regional cerebral blood flow XXIV
– scintigraphic images 32
– screening strategy 305
– TPN lipid system XIII
– untractable ascites 14
– urea synthesis XI
liver cysts, deroofing 1
– follow-up 1
– pericystectomy 1
liver failure, benzodiazepine receptor ligand concentration II
– energy metabolism XXV
– hepatic encephalopathy II
liver hematoma, anticoagulation therapy 402
– trimethoprim-sulphametoxazol 402
– warfarin sodium 402
liver injury, Kupfer cells 259
liver resection, cirrhosis 14
– extrahepatic bile duct carcinoma 26
– hepatic hilar bile duct carcinoma 26
– hepatocellular carcinoma 328
– intrahepatic biliary dilatation 13
– intractable ascites 14
– liver failure 14
– reoperation 333/337
– survival 328
– tumor recurrence 328/333
liver transplantation, chronic liver disease 297
– cirrhosis 593
– hepatocellular carcinoma 318
– immunosuppression 297
– portal hypertension 593
– previous portosystemic shunt 593
l-ornithine-l-aspartate, hepatic encephalopathy XV
– hyperammonemia XV
– lactulose XV
– oral sodium benzoate XIX
– synaptosomal respiration XIX
lymphadenectomy, pancreatic cancer 145
– periampullary carcinoma 145

M

main hepatic duct cancer, radiotherapy 285
– recurrent tumor 285

– salvage treatment 285
– surgery 285
malabsorption, small-bowel transplantation 282
mesothelial cyst, CT 509
– enteroclysis 509
– ileal torsion 509
– plain radiographs 509
– ultrasound 509
metoclopramide, esophageal varices 173
– lower esophagus sphincter pressure 174
– variceal pressure 173
monoamines, acute hepatic encephalopathy IV
mucosal interleukin-B, gastric disease 93

N

neomycin, portocaval anastomosis IX
nervous system, intestinal mucosal mast cell 85
Niemann pick disease, family history 243
– hepatosplenomegaly 243
– histiocytes 243
– honey comb lung 243
– laboratory data 243
– liver lesion 240
– Niemann pick cells 243
nitazidine, gastric emptying 92
– gastroesophageal reflux disease 92
– salivary carbonic anhydrase activity 92
– – secretion 92
nitric oxide, functional dyspepsia 86
– glyceryl trinitrate 86
non atrophic antral gastritis, atrophic gastritis 86
– gastric cancer 86
non ulcer dyspepsia, antacid hydrotalcite 87
– bismuth subsalicylate 87
normal gastric mucosa, collagen typ I 90
– collagen typ III 90
– – IV 90
nuclear DNA analysis, early esophageal carcinoma 232
– prognostic factor 232

O

obturator hernia, chylous ascites 132
– CT-scan diagnosis 131
– intra-abdominal approach 133
– preperitoneal approach 133
omeprazole, acid inhibition 95
– high dose treatment 95
– NSAID-induced gastroduodenal lesion 97

P

pancreatectomy, extended pancreatectomy 414
– lymphatic and connective tissue clearance 414
– nodal involvement 414
– pancreatic cancer 414
– portal vein invasion 414
– size of tumor 414
– total pancreatectomy 418
pancreatic ascites, conservative treatment 153
– surgery 153
pancreatic ascites, acute pancreatitis 152
– chronic pancreatitis 152
– conservative treatment 153
– CT 153
– disruption of the pancreatic duct 153
– pseudocyst 152
– SLE 152
– surgery 153
